

## Financial and Insurance Policies

Our financial coordinator will review with you an estimate of your child's recommended treatment plan. If you have dental insurance, please bring all of the necessary forms and benefit booklets with you. This will allow us to give you an accurate estimate of your insurance benefits.

We will make every effort to maximize your insurance coverage; however, you should be aware that your dental insurance is an agreement between you and your carrier. Therefore, we will consider you as the responsible party for your child's treatment. Our office will complete and file insurance claims for you. We offer payment options which include credit cards, (VISA, MasterCard, Discover, Care Credit), and cash payment discounts.
