

July 10, 2019

To our valued families:

We've recently become aware of the projected changes regarding the school district's dental health benefits starting Jan 1, 2020. The School Employees Benefit Board, (SEBB), will now be offering three choices for dental insurance.

Beginning January 1, 2020, SEBB Program benefits will include:

- One Delta Dental of Washington *managed-care* dental plan (DeltaCare)
- One Willamette Dental *managed-care* dental plan
- ***One Delta Dental of Washington dental plan (*Uniform Dental Plan*)**

***In order to continue to utilize your dental insurance in our office please select the *Delta Dental Uniform Plan*.** Selecting this plan keeps *you in control* of selecting the best treatment options for you and your family. The other two options are "managed-care" plans. While these plans cost less, you may find that you have less choices for providers and reduced options for treatment.

We are committed to pursue excellence in serving you and will make every effort to maximize your insurance benefits for you. I hope that we can continue the privilege of providing the highest level of dental and orthodontic care available for your children.

You can Find more information at:
